PROFESSIONAL SUMMARY

Experienced Front-end Developer with 2+ years of expertise in building scalable web applications using React.js, Next.js, and TypeScript. Proven track record of delivering high-performance solutions with excellent user experiences, including a platform that achieved 40,000+ visitors in its first week. Passionate about creating responsive, accessible, and SEO-optimized applications that drive user engagement and business growth.

PROFESSIONAL EXPERIENCE

Softlabs   Aug 2025 – Present
Front-end Developer (Remote)   *Remote*

- Develop scalable front-end solutions using React.js, Tailwind CSS, and TypeScript for enterprise-level applications.
- Collaborate with cross-functional teams including designers, backend developers, and product managers to deliver high-quality software products.
- Participate in code reviews and maintain coding standards to ensure optimal performance and maintainability.

Tazamun Information Technology   Nov 2023 – Feb 2025
Front-end Developer   *Tanta, Egypt*

- Developed and optimized dynamic web applications using React.js and Tailwind CSS, resulting in improved user engagement metrics.
- Collaborated with backend teams to integrate RESTful APIs, ensuring seamless data flow and enhanced UI functionality.
- Implemented responsive design principles achieving consistent user experience across desktop, tablet, and mobile devices.
- Debugged and refactored existing codebases, improving application performance by 25% and reducing load times.

Etrevago   May 2023 – Aug 2023
Front-end Developer (Remote)   *Remote*

- Built interactive UI components using Next.js and Redux Toolkit, enhancing user interaction and state management.
- Streamlined development workflows with TypeScript, reducing debugging time by 30% and improving code maintainability.
- Conducted thorough testing and deployment of web applications, ensuring cross-browser compatibility and optimal performance.

PROFESSIONAL HIGHLIGHTS

High-Impact Projects: Delivered Fantasy Pro Manager platform achieving 37,000+ visitors and 203,000+ page views in first week

Performance Optimization: Improved application performance by 25% and reduced debugging time by 30% through code refactoring

Dashboard & Web Platform Development: Built comprehensive web dashboards, landing pages, and admin panels using React.js and Inertia.js

Cross-Functional Collaboration: Proven ability to work with backend teams, designers, and product managers in remote and on-site environments

Technical Leadership: Mentored junior developers and established coding standards across multiple projects

SEO & Accessibility: Consistently achieved 95+ Lighthouse scores across all projects for performance, accessibility, and SEO

KEY PROJECTS

Fantasy Pro Manager   fantasypromanager.com/ar
- Developed a comprehensive fantasy football platform for the YouTube channel @fantasawy, serving fantasy football fans across the Arab world.
- Achieved exceptional performance with **40,000+ visitors** and **211,000+ page views** in the first week, maintaining outstanding Lighthouse scores: **Mobile:** 96 Performance, 95 Accessibility; **Desktop:** 97 Performance, 95 Accessibility.
- Implemented SEO-optimized architecture with server-side rendering, expert advice system, team management tools, and comprehensive player statistics.
- **Technologies:** Next.js, Tailwind CSS, TypeScript

Fantasy Pro Manager — Expert & Admin Dashboards
- Architected and developed dual dashboard systems: Expert Dashboard for predictions and data management, and secure Admin Dashboard for system control.
- Built with Laravel REST API backend and React.js frontend, implementing role-based authentication, real-time data updates, and modern UI design.
- Created secure registration system for experts with comprehensive permission management and data validation.
- **Technologies:** React.js, Laravel, Tailwind CSS, RESTful APIs

MASA Platform   masa-new-front.vercel.app
- Developed the official platform for MASA, a Saudi initiative empowering women through inspirational programs and events.
- Built under supervision of the Coordinating Committee for Women's Associations in Saudi Arabia and National Council of NGOs.
- Implemented features to unify efforts of women-led organizations, facilitate knowledge exchange, and elevate leadership excellence.
- **Technologies:** Next.js, Tailwind CSS, TypeScript

Orenus Business Management Platform   orenus.net
- Developed comprehensive business management platform with web and mobile interfaces, available on Android and iOS stores.
- Implemented advanced state management using Preact-signals and robust form validation with Yup and React-hook-form.
- Built efficient API integration layer using Axios and React-query with optimistic updates and error handling.
- Created standalone admin dashboard using Laravel and Inertia.js for seamless backend integration.
- **Technologies:** React.js, TypeScript, Tailwind CSS, Laravel, React-query, i18next

Kayan Bookstore E-commerce   kayanbookstore.com
- Developed modern e-commerce platform for books, electronics, and educational products with intuitive shopping experience.
- Implemented advanced filtering, search functionality, and secure payment integration.
- Achieved excellent accessibility scores and mobile-first responsive design.
- **Technologies:** Next.js, Tailwind CSS, TypeScript

ArabGiftCard Corporate & E-commerce   arabgiftcard.ae — arabgiftcard.com
- Built corporate website with headless CMS using Sanity.io for dynamic content management without code modifications.
- Developed full-featured e-commerce platform for digital gift cards with multi-language support (Arabic/English).
- Implemented real-time data fetching, secure payment processing, and comprehensive admin dashboard.
- **Technologies:** Next.js, React.js, TypeScript, Tailwind CSS, Sanity.io, React-query

Metragroup Corporate Website   metragroup.com
- Rebuilt official website for leading MENA region IT distributor with modern architecture and enhanced performance.
- Implemented smooth Inertia-powered navigation and responsive React.js components.
- **Technologies:** React.js, Inertia.js, Laravel

Note: Additional confidential dashboard projects available for demonstration during interviews.

Core Competencies

Programming Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS/Sass
Frontend Frameworks & Libraries: React.js, Next.js (SSR/SSG), Redux Toolkit, Zustand
UI/UX Technologies: Tailwind CSS, Bootstrap, Material-UI, shadcn/ui, Responsive Design
State Management: Redux Toolkit, Zustand, Preact-signals, React Context API
Data Management: @tanstack/react-query, SWR, Axios, RESTful APIs, GraphQL
Form & Validation: React Hook Form, Formik, Yup validation, Zod
Development Tools: Git/GitHub, Postman, ESLint, Prettier, Webpack, Vite
Deployment & Hosting: Vercel, Netlify, AWS, Docker basics
CMS & Backend: Sanity.io, Strapi, Laravel, Node.js basics
Testing & Performance: Jest, React Testing Library, Lighthouse optimization, Web Vitals

Professional Certifications

Udacity Frontend Nanodegree - Advanced frontend development with focus on performance and accessibility
Hsoub Frontend Development Certification - Comprehensive Arabic frontend development program
Udemy React Course - Complete React.js ecosystem including hooks, context, and modern patterns

Languages

Arabic: Native Speaker
English: Advanced (Reading/Listening), Intermediate (Speaking/Writing)
